Our Health Care Benefits Are at Stake!!

Over 250,000 retired NYC municipal employees are at risk of losing their Traditional Medicare and Medigap (Senior-Care) Health Care Plan

- **The City and Unions are trying to automatically switch Retirees into a Medicare-Advantage Plan**
- ***Medicare- Advantage is a Private For-Profit Plan that requires Pre-Approval for almost every medical procedure***
- **You will not be covered by Government Administered "Traditional" Medicare and can only change back to Medicare at certain times of the year**

Active Employees, you will face the same fate when you retire
Join us now to protect your future health care coverage

We have already Won 6 Rounds in the Courts against the City and the Unions who are trying take away our promised health benefits. The battle continues…
